BIOMETRIKA

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

VOLUME 62

1975

Editor
D. R. COX

Business Manager
D. V. Lindley

Editor of Auxiliary Publications
E. S. Pearson

Associate Editors
P. M. E. Altham
P. Armitage
M. S. Bartlett
F. Downton
M. J. R. Healy
A. M. Herzberg
J. F. C. Kingman
S. D. Silvey

ISSUED BY

THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE LONDON

Printed in Great Britain at the University Printing House, Cambridge

Contents of Volume 62

PAGE

AITCHISON, J. Goodness of prediction fit 547

ANDERSON, J. A. Quadratic logistic discrimination 149

ANDERSON, O. D. A note on differencing autoregressive moving average (p,q) processes 521

ANDERSON, O. D. Bounding sums for the autocorrelations of moving average processes 706

ANDERSON, O. D. The recursive nature of the stationarity and invertibility restraints on the parameters of mixed autoregressive-moving average processes . . 704

ATKINSON, A. C. and FEDOROV, V. V. Optimal design: Experiments for discriminating between several models 289

ATKINSON, A. C. and FEDOROV, V. V. The design of experiments for discriminating between two rival models 57

BARBOUR, A. D. The duration of the closed stochastic epidemic 477

BELLHOUSE, D. R. and RAO, J. N. K. Systematic sampling in the presence of a trend 694

BERRY, G. Design of carcinogenesis experiments using the Weibull distribution . 321

BESAG J. E. and MORAN, P. A. P. On the estimation and testing of spatial interaction in Gaussian lattice processes 555

BINNS, M. Sequential estimation of the mean of a negative binomial distribution . 433

BLIGHT, B. J. N. and OTT, L. A Bayesian approach to model inadequacy for polynomial regression 79

BLOOMFIELD, P. and WATSON, G. S. The inefficiency of least squares 121

BOCK, R. D. and PETERSEN, A. C. A multivariate correction for attenuation . 673

BOOMSMA, A. An error in F. N. David's tables of the correlation coefficient . . 711

BOWMAN, K. O. and SHENTON, L. R. Omnibus test contours for departures from normality based on $\sqrt{b_1}$ and b_2 243

BOX, G. E. P. and DRAPER, N. R. Robust designs 347

BROWN, B. M. A short-cut test for outliers using residuals 623

CHASE, G. R. and HOEL, D. G. Serial dilutions: Error effects and optimal designs 329

CONNIFFE, D. and STONE, J. Some incomplete block designs of maximum efficiency 685

COPAS, J. B. On the unimodality of the likelihood for the Cauchy distribution . 701

COX, D. R. A note on data-splitting for the evaluation of significance levels . . 441

COX, D. R. A note on empirical Bayes inference in a finite Poisson process . . 709

COX, D. R. A note on partially Bayes inference and the linear model . . . 651

COX, D. R. Partial likelihood 269

DAVENPORT, J. M. Two methods of estimating the degrees of freedom of an approximate F 682

DAVIES, R. B. and HUTTON, B. The effect of errors in the independent variables in linear regression 383

DELCOIGNE, A. and HANSEN, P. Sequence comparison by dynamic programming . 661

DEROUEN, T. A. and SARMA, Y. R. G_1-minimax procedures for the case of prior distributions in discriminant analysis 403

DESU, M. M. (*See* LEE, E. T.)
